EDUCATION

- Bachelor of Information
Communication Technology Honours**
University of Vavuniya
Faculty of Technology
- Taxila Central College**
Horana

PROFILE

"I'm a passionate and self-motivated UI/UX designer with a keen eye for creating user-centered, intuitive designs. Skilled in crafting interactive prototypes, wireframes, and user flows using tools like Figma and Adobe XD, I am committed to delivering innovative solutions that align with user needs and business goals. As an enthusiastic team player and adaptable undergraduate in Information and Communication Technology, I am eager to learn, grow, and contribute meaningfully through an internship opportunity."

PROJECTS

- 1. Weather App Design - Mobile Application [Individual]**
I redesigned the Redmi 10 weather app using Figma with animations, plugins, and prototyping for an attractive UI/UX. [\(BEHANCE\)](#)
- 2. Job Finding App Design - Mobile Application [Individual]**
Name: "JobNet", Figma, Adding and Creating Animations, Prototyping [\(BEHANCE\)](#)
- 3. Juice Bar Web Design - Web Application [Individual]**
This UI/UX design, made in Figma, uses prototypes, plugins, and background remover tools. It lists juice types and the location but is not for online orders. Images are from Pinterest. [\(BEHANCE\)](#)
- 4. Rice and Spices Delivery E-Commerce Web Design - Web Application [Individual]**
Name: "Gamage Mills Heaven", This UI design, created in Figma, is part of my E-Commerce Web Application project. It focuses on a clean, user-friendly layout, balancing functionality, aesthetics, and simplicity. The final website closely matches the design, showcasing my creativity and practical skills. [\(BEHANCE\)](#)
- 5. Simple SignIn Page - Mobile Application [Individual]**
I wanted to create a simple sign-in page using Figma with a bouncy animation. I used prototyping to achieve this. [\(BEHANCE\)](#)
- 6. Furniture Selling E-Commerce Web Design - Web Application [Individual]**
I designed a furniture shop UI in Figma, used background remover tools, and included discount rates in the design. [\(BEHANCE\)](#)
- 7. Trouser Selling Platform E-Commerce Web Design - Web Application [Individual]**
I designed a web app to sell trousers, focusing on UI. It features denim for men and women size selection, and styled displays. I used background removal tools for images. [\(BEHANCE\)](#)
- 8. Rice and Spices Delivery Database Management System [Individual]**
Name: "Gamage Mill's Heaven", Used HTML, CSS, Javascript, PHP, MySQL Software Engineering Project with SRS Document and Project Proposal [\(GitHub\)](#)
- 9. Calculator [Individual]**
I used HTML, CSS, JavaScript [\(GitHub\)](#)
- 10. My Portfolio**
I used HTML, CSS, JavaScript [\(GitHub\)](#)
