Bachelor of Information Communication Technology Honours
University of Vavuniya
Faculty of Technology

Taxila Central College
Horana

PROFILE

"I'm a passionate and self-motivated UI/UX designer with a keen eye for creating user-centered, intuitive designs. Skilled in crafting interactive prototypes, wireframes, and user flows using tools like Figma and Adobe XD, I am committed to delivering innovative solutions that align with user needs and business goals. As an enthusiastic team player and adaptable undergraduate in Information and Communication Technology, I am eager to learn, grow, and contribute meaningfully through an internship opportunity."

PROJECTS

1. **Weather App Design - Mobile Application [Individual]**
   I redesigned the Redmi 10 weather app using Figma with animations, plugins, and prototyping for an attractive UI/UX. **(BEHANCE)**

2. **Job Finding App Design - Mobile Application [Individual]**
   Name: "JobNet", Figma, Adding and Creating Annimations, Prototyping **(BEHANCE)**

3. **Juice Bar Web Design - Web Application [Individual]**
   This UI/UX design, made in Figma, uses prototypes, plugins, and background remover tools. It lists juice types and the location but is not for online orders. Images are from Pinterest. **(BEHANCE)**

4. **Rice and Spices Delivery E-Commerce Web Design - Web Application [Individual]**
   Name: "Gamage Mills Heaven", This UI design, created in Figma, is part of my E-Commerce Web Application project. It focuses on a clean, user-friendly layout, balancing functionality, aesthetics, and simplicity. The final website closely matches the design, showcasing my creativity and practical skills. **(BEHANCE)**

5. **Simple SignIn Page - Mobile Application [Individual]**
   I wanted to create a simple sign-in page using Figma with a bouncy animation. I used prototyping to achieve this. **(BEHANCE)**

6. **Furniture Selling E-Commerce Web Design - Web Application [Individual]**
   I designed a furniture shop UI in Figma, used background remover tools, and included discount rates in the design. **(BEHANCE)**

7. **Trouser Selling Platform E-Commerce Web Design - Web Application [Individual]**
   I designed a web app to sell trousers, focusing on UI. It features denim for men and women, size selection, and styled displays. I used background removal tools for images. **(BEHANCE)**

8. **Rice and Spices Delivery Database Management System [Individual]**
   Name: "Gamage Mill's Heaven", Used HTML, CSS, Javascript, PHP, MySQL
   Software Engineering Project with SRS Document and Project Proposal **(GitHub)**

9. **Calculator [Individual]**
   I used HTML, CSS, JavaScript **(GitHub)**

10. **My Portfolio**
    I used HTML, CSS, JavaScript **(GitHub)**
