

## RITHMI LAKSHANI GAMAGE

## INTERN UI/UX DESIGNER

## 8

#### **PROFILE**

I'm a passionate and self-motivated UI/UX designer with a keen eye for creating user-centered, intuitive designs. Skilled in crafting interactive prototypes, wireframes, and user flows using tools like Figma and Adobe XD, I am committed to delivering innovative solutions that align with user needs and business goals. As an enthusiastic team player and adaptable undergraduate in Information and Communication Technology, I am eager to learn, grow, and contribute meaningfully through an internship opportunity.

#### **PROJECTS**

#### 1. Rice and Spices Delivery E-Commerce Web Design - Web Application [Individual]

Name: "Gamage Mills Heaven", This UI design, created in Figma, is part of my E-Commerce Web Application project. It focuses on a clean, user-friendly layout, balancing functionality, aesthetics, and simplicity. The final website closely matches the design, showcasing my creativity and practical skills. (FigmaLink)

#### 2. Juice Bar Web Design - Web Application [Individual]

This UI/UX design, made in Figma, uses prototypes, plugins, and background remover tools. It lists juice types and the location but is not for online orders. Images are from Pinterest. (FigmalLink).

#### 3. Furniture Selling E-Commerce Web Design - Web Application [Individual]

I designed a furniture shop UI in Figma, used background remover tools, and included discount rates in the design. **(FigmaLink)**.

#### 4. Trouser Selling Platform E-Commerce Web Design - Web Application [Individual]

I designed a web app to sell trousers, focusing on UI. It features denim for men and women, size selection, and styled displays. I used background removal tools for images. (FigmaLink)

#### 5. Rice and Spices Delivery Database Management System [Individual]

Name: "Gamage Mill's Heaven", Used HTML, CSS, Javascript, PHP, MySQL Software Engineering Project with SRS Document and Project Proposal. (GitHub).

#### 6. Job Finding App Design - Mobile Application [Individual]

Name: "JobNet", Figma, Adding and Creating Annimations, Prototyping. (FigmaLink)

#### 7. Weather App Design - Mobile Application [Individual]

I redesigned the Redmi 10 weather app using Figma with animations, plugins, and prototyping for an attractive UI/UX. <u>(FigmaLink)</u>

#### 8. My Portfolio

I used HTML, CSS, JavaScript (GitHub)
