

RITHMI LAKSHANI GAMAGE

INTERN UI/UX DESIGNER

8

PROFILE

I'm a passionate and self-motivated UI/UX designer with a keen eye for creating user-centered, intuitive designs. Skilled in crafting interactive prototypes, wireframes, and user flows using tools like Figma and Adobe XD, I am committed to delivering innovative solutions that align with user needs and business goals. As an enthusiastic team player and adaptable undergraduate in Information and Communication Technology, I am eager to learn, grow, and contribute meaningfully through an internship opportunity.

PROJECTS

1. Rice and Spices Delivery E-Commerce Web Design - Web Application [Individual]

Name: "Gamage Mills Heaven", This UI design, created in Figma, is part of my E-Commerce Web Application project. It focuses on a clean, user-friendly layout, balancing functionality, aesthetics, and simplicity. The final website closely matches the design, showcasing my creativity and practical skills. (FigmaLink)

2. Juice Bar Web Design - Web Application [Individual]

This UI/UX design, made in Figma, uses prototypes, plugins, and background remover tools. It lists juice types and the location but is not for online orders. Images are from Pinterest. (FigmaLink)

3. Furniture Selling E-Commerce Web Design - Web Application [Individual]

I designed a furniture shop UI in Figma, used background remover tools, and included discount rates in the design. **(FigmaLink)**.

4. Trouser Selling Platform E-Commerce Web Design - Web Application [Individual]

I designed a web app to sell trousers, focusing on UI. It features denim for men and women, size selection, and styled displays. I used background removal tools for images. (FigmaLink)

5. Rice and Spices Delivery Database Management System [Individual]

Name: "Gamage Mill's Heaven", Used HTML, CSS, Javascript, PHP, MySQL Software Engineering Project with SRS Document and Project Proposal. (GitHub).

6. Job Finding App Design - Mobile Application [Individual]

Name: "JobNet", Figma, Adding and Creating Annimations, Prototyping. (FigmaLink)

7. Weather App Design - Mobile Application [Individual]

I redesigned the Redmi 10 weather app using Figma with animations, plugins, and prototyping for an attractive UI/UX. <u>(FigmaLink)</u>

8. My Portfolio

I used HTML, CSS, JavaScript (GitHub)
